

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

**SID:** Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. The devil, I'm putting you on notice, he already knows it, is in fear and trembling when a believer understands the power, the blood of Jesus, the power of pleading the blood of Jesus, I tell you, every knee must bow at the name of Jesus and the devil himself is overcome by the Blood of the Lamb and the word of my testimony. Thousands have been healed, blind can see, deaf can hear, hearts have been restored, cancer, 57 Stage 4 cancers healed. What does Stage 4 mean?

**TOMMY:** Stage 4 cancer is the end of the cancerous situation in your life where the cancer has really taken your body and no more chemo, no more radiation. They actually give you limits like one week, ten days, two months to live. That is Stage 4.

**SID:** But you say you attribute all of these miracles to understanding the blood of Jesus.

**TOMMY:** Understanding the blood of Jesus and how to apply the blood.

**SID:** Now you started as a young child, you remember, what did your grandmother, you said your grandmother would plead the blood. What do you remember?

**TOMMY:** I remember as a young boy going to Grandma's house. I loved it. I loved to go to church with her. I loved to praise and worship with her. She would walk through her house pleading the blood. She would not let us leave home without praying for us and pleading the blood over us. She would not let us go to bed at night without praying for us and pleading the blood. And she taught us. Now listen, we didn't sit on the couch and pray, we knelt and prayed.

**SID:** Why don't you plead the blood over the people right now the way your grandmother would.

**TOMMY:** Lord, I come right now to plead the blood of Jesus. I use that name of Jesus, anybody that needs healing today to start pleading the blood of Jesus, command that disease to leave your body in the name of Jesus and by the blood of Jesus. Financial blessings come to you today when you plead the blood of Jesus. The devil runs, he hates it when you plead the blood. He fears you when you plead the blood of Jesus. Demons will leave you alone. You will never have them come on your property ever again when you plead the blood of Jesus. I tell you, we've got to use it more and more, and more.

**SID:** You had a revelation on the 39 stripes of Jesus, which is, they did 39 because I think they believed 40, the person might die. But tell me about the 39 stripes.

**TOMMY:** Thirty-nine stripes, they did 40 minus one, that was the normal tradition of the Roman beating that they did to the prisoners and Jesus took the 39th stripe. Every stripe, there are 39 major diseases in the world today, cancer being one of them, and Jesus took that stripe for you and for me. Every stripe he took on the back brought blood from him, so I wanted to teach

the blood. I wanted to teach on the blood, how to apply the blood, how the blood will work just like it worked centuries ago, and is still working today. I'm talking about today when I pray for people, I never, never leave them without pleading the blood over them

**SID:** And most people think, well you plead the blood for sickness, but you plead the blood for every problem known to man.

**TOMMY:** Not only salvation, not only healing, not only deliverance, but peace, sanctification, righteousness, financial blessings over your family, over every aspect of your life plead the blood of Jesus. Plead the blood over decisions you've got to make about finances. Plead the blood of Jesus over the situation. Decisions in your marriage, plead the blood of Jesus over that marriage. Plead of Jesus over children and grandchildren, like my grandmother used to do with me, liked to, my mother taught me, plead the blood of Jesus. And I'm into that. I'm going to plead the blood. When I come to your church I'm going to plead the blood. Today I'm going to plead the blood of Jesus. Thousands healed, demons run when we plead the blood of Jesus.

**SID:** Tell me about a ten-year-old Tommy Combs who has hepatitis C. What was the prognosis for you?

**TOMMY:** Don't know how it happened, still to this day don't know how that happened to my body. The enemy attacked my body at age ten. I was diagnosed with hepatitis C and went to the hospital on a Thursday night. Got there, they examined me, they come out and told my mom and dad, "He should have been here months ago. Hepatitis C has destroyed his liver. Your son will die in a week. Your son will die in eight, nine days. Nothing we can do."

**SID:** I'm glad you had a praying grandmother that knew.

**TOMMY:** Grandmother had a mother that knew. So that was Thursday night. They put me in a room in the hospital and on Sunday morning, you remember this, Sid, Oral Roberts came on television.

**SID:** "Something good is going to happen to you." He used to say that every time.

**TOMMY:** Every time.

**SID:** You know what, something good happened to you.

**TOMMY:** Yes it did, something good happened to me. And during that program he would put his hand up and nothing was on the TV screen except Oral Roberts' hand. And the camera would zoom in on his hand, and he would say, "If you need a healing, touch your television."

**SID:** You know, today that sounds so hokey, but guess what? If someone has Stage 4 cancer and they'll be healed, just before we go off the air, will you hold your hand up to the camera?

**TOMMY:** Yes.

**SID:** And if you will touch his hand, whether it's Stage 4 cancer or your wife has just left you for another man, or your kids are on drugs, whatever it is, I'm going to believe that's going to be your point of contact. So Oral Roberts is on TV. What happened?

**TOMMY:** My mother puts her hand on the TV, a little black and white TV sitting beside the bed, mother touches it, reaches her other hand to my stomach and says these words: "God, heal my boy and I'll give him to you." If you don't know where that is, that is First Samuel, Chapter 1.

**SID:** I know. I read that two days ago.

**TOMMY:** Hannah said, "Give me a man child." Samuel was born out of that prayer. Instantly when my mother prayed that prayer, the power of God, and my mother pleaded the blood now, I don't leave that out. My mother prays, my grandmother prays and they plead the blood. Instantly, the power of God came into my hospital room. It rolled in like a blue mist. I can remember it like yesterday, Sid. I remember the blue mist rolling into the room. It was so powerful it knocked my grandmother to one side of the bed, my mother to the other side of the bed on the floor. I raised up and looked like this. My mother and my grandmother are gone. Jesus walked back up to the bottom of my bed, walked right up through that blue mist and to the bottom of my bed. I saw it. I can describe him to you. I see him today just as vividly as I saw him as a ten-year-old boy on that bed, lying there, dying sick, walked up to my bed. I got a brand new liver in one second, one second healed by the blood of Jesus Christ. And I feel that same anointing today right here on the set as I felt that day when Jesus came into the room with me. There are healings going to take place today. There are healings going to take place. Get ready for it. Miracles are going to happen.

**SID:** I have to ask you, how did the doctor or the nurses react? I mean, they were ready to ship you off to the grave.

**TOMMY:** The nurse comes, she don't know what's happening. She calls the doctor. The doctor come in, he calls his other assistant doctors. So I got four or five doctors around me. They look at me, they give me a blood test, I have absolutely no hepatitis in my bloodstream. My liver is totally clean, healed, perfectly healed by the power of God. The doctor says to my mother and grandmother, "God has healed your son."

**SID:** When we come back, let's see what the blood of Jesus does with a dead woman in Peru. Be right back.

*We now return to **It's Supernatural***

**SID:** Did you know that there is such wonder working power in the blood of Jesus, there is supernatural protection. Explain, Tommy.

**TOMMY:** There is supernatural protection. You remember the covenant and the blood covenant put the blood on the doorpost? They say we can do that today. We need to do that today. It should be done today as we go through our home pleading the blood of Jesus over the protection of our home, over the protection of our properties, over the protection of our business. God will do that. He would honor that. Not only is there salvation, healing and deliverance in the blood, but there is supernatural protection for you, your family, your business because of the blood of Jesus. And I pray that. I pray supernatural protection over the properties. Let me tell you what I've done. I've took oil and put it on the bottom of my shoes, my old work boots.

**SID:** So therefore, every place you put your foot, devil, you're not, just like the blood at Passover, the Angel of Death couldn't even go into the Jewish homes.

**TOMMY:** You're not allowed into this property. The angel did not go into that property simply because of the blood. Same thing, put oil on your old work boots and walk your property line, and stomp your foot, and say, "Devil, you can't come on this property." But angels can come on this property. Sickness can't come on this property, but healing can come on this property.

**SID:** I'll tell you what, after this show, you know what I'm gonna do, Tommy. I'm going to put oil on my shoe and the blood of Jesus I'm going to apply, and I'm reminded what God said to Joshua: "Every place you put your foot I'm giving you..."

**TOMMY:** Amen.

**SID:** "...in the promised land." How about in the promises of God, every place you put your foot, the promises of God are going to be there. You tell me the devil hates Isaiah 53:5.

**TOMMY:** "By his stripes we are healed." It says "are healed", not should be, not could be, not might be, but healed by the blood of Jesus Christ, by the stripes. I did the 39 stripes for the 39 stripes Jesus took for us and every stripe for the healing power of Jesus Christ in our lives, and it's part of our lives, should be part of our lives. We say, now you've tried this, we've tried this, we've gone here, we've done that, we've read that, we've done that. It's time to plead the blood. It's time to plead the blood. It's got to get to that point in our lives that we go back to pleading the blood of Jesus and sing the old songs. There's power in the blood, wonder-working power in the blood.

**SID:** The dead are raised by the blood of Jesus. Tell me just one, a woman in Peru. This is amazing.

**TOMMY:** Doing a trip into Peru in a stadium, had about 15,000 people there every night, praying for people, had 3000 saved in that trip into Iquitos, Peru, the jungle city of Peru, about 500,000 people live there deep in the jungle. So a lady had died about four p.m. that afternoon and, most of the time they would bury them the next morning or late that afternoon. But the husband of that lady and her son bring her to the meeting. Now I didn't know she was there.

**SID:** Right.

**TOMMY:** I'm doing the preaching on the stage and so forth.

**SID:** They bring the corpse.

**TOMMY:** They bring the corpse on a cot, a homemade cot, and they lay her in the back of the room at the stadium. She's in the stadium there. I had no idea. So they get there about six p.m. and she stays there until 10:30. At 10:30, I'm ending the prayer line where I'm praying for people and God is doing miracles. I like to call them popcorn miracles because they happen so fast, just like this, a miracle will happen. And they bring this lady to me and I say, "What's wrong with this lady?" And the answer was, "She's dead." I said, "Sir, repeat that to me, please." "She's dead." And I asked the daddy and the son, "Why would you bring your dead mother to me?" And they said this.

**Man:** So God can raise her up.

**TOMMY:** That's the faith of the daddy and the faith of the son that God is going to raise their mama, God is going to raise my wife from the dead. I knelt beside her and began to pray. I anoint her, pray for her. I take authority over death. Now you can do that. You can absolutely take authority over death. I take authority over death in the name of Jesus, not in my name, but in the name of Jesus, take authority over death. I plead the blood of Jesus right now, and I blew in her face. Just blew in her face. And she opened eyes, and when she opened her eyes I just took her by her hand and raised her up. She sat up. And I said, "Well if you're gonna sit up, just stand up." And I'm telling you, we had church until midnight. God, I can take you to her home. I've had lunch with this lady in her home right now in Iquitos, Peru. We can go there and visit her. She's alive today. Jesus is still raising the dead because we plead the blood.

**SID:** Jesus said, "You will do," you, that's why you're watching. I want you to be healed. I want you to pray for the sick. It's not the people on TV, it's the people that have Jesus inside of themselves. You qualify if Jesus is your Messiah and Lord. When we come back, Tommy used a phrase, I understand it, "popcorn miracles", meaning there will be so many miracles you can't keep track, pop, pop, pop like the popcorn. I'm going to have him pray for you when we come back.

*We'll be right back to **It's Supernatural**.*

*We now return to **It's Supernatural***

**SID:** Tommy, you say it's important in your home wherever you are to not just talk about the blood of Jesus, but sing about it. There's something very powerful about singing.

**TOMMY:** Your words are powerful. Words are powerful. You can bless me with your words or you can curse me with your words. But my own ears have to hear the words and the best way I know to do that is to sing about the blood of Jesus.

**SID:** Give me just a snippet. I know you're not a singer, but sing.

**TOMMY:** What can wash away my sins, nothing but the blood of Jesus.

**SID:** That's not singing.

**TOMMY:** I know. What can make me whole again, nothing but the blood of Jesus.

**Sid** [singing]: What can wash away my sins. [talking] I'd rather sing it.

**Tommy**[singing]: Nothing but the blood of Jesus.

**SID:** See, if you can do it, if I can do it, you can do it. And if you can only see what's going on in the invisible realm when you do that. Tommy, tell me about other areas where you apply the blood, like finances.

**TOMMY:** Financial blessings, take your checkbook, lay it on your table. You and your wife come in agreement, that's powerful agreement prayers, and plead the blood of Jesus over your money situations. Before you make a financial decision, pray about it and plead the blood of Jesus over it. Use some wisdom and let God lead and guide you on that situation. I had a young man come to me and said I need some help financially, and we prayed for him. And I told him there would be three distinct areas in your life that's going to happen in the next two weeks. He was a retired military from the Iraq war. Number one, he was hurt in the war. He got his military pension. Number two, his wife went back to work with a better job with more benefits, and number three, he got his Social Security Disability that he had been trying to get for two years. All three happened within a two-week period because I told him start pleading the blood over your financial situation, and God did those miracles. Don't forget that. Yes, healing, yes, salvation, yes, children, yes, grandchildren, yes, we're going to plead the blood. Don't forget financial miracles when you plead the blood of Jesus.

**SID:** But you know what the greatest thing the blood of Jesus does, without the shedding of blood there is no forgiveness of sin. None. Talk about that.

**TOMMY:** The blood of Jesus, without that there's nothing happening in our life. Eternal life we can have when we accept Jesus Christ as our personal savior.

**SID:** How about you? Have you accepted Jesus as your Messiah and Lord? You know, Jesus puts it this way: This is eternal life that you might have experiential knowledge of me. Say this prayer and mean it, out loud. Dear Jesus.

**TOMMY:** Dear Jesus.

**SID:** Thank you for your blood.

**TOMMY:** Thank you for your blood.

**SID:** Thank you, Jesus.

**TOMMY:** Thank you, Jesus.

**SID:** That my sins are washed away.

**TOMMY:** That my sins are washed away.

**SID:** There is total forgiveness.

**TOMMY:** There is total forgiveness.

**SID:** It's a new future.

**TOMMY:** It's a new future.

**SID:** It's the first day of the rest of my life.

**TOMMY:** It's the first day of the rest of my life.

**SID:** Jesus, come inside of me.

**TOMMY:** Jesus, come inside of me.

**SID:** And become my Lord and Savior.

**TOMMY:** And become my Lord and Savior.

**SID:** I love, Jesus.

**TOMMY:** I love you, Jesus.

**SID:** I want experiential knowledge of you.

**TOMMY:** I want experiential knowledge of you.

**SID:** Amen.

**TOMMY:** Amen.

**SID:** And now I commission you to pray as God tells you, applying the blood of Jesus, cancers, they are going to flee. That means run as in terror. And remember to put your hand up just as Oral did and think about the healing you had.

**TOMMY:** Amen. Lord, we come to you today, and we thank you and we praise you for everything we have or hope to have, and we plead the blood. Those of you that are watching today need a healing in your life, if you can't touch your TV screen, just point your hand toward the TV screen right now. And I plead the blood of Jesus. Cancer, you got to go in Jesus' name. I take

authority over cancer. Leukemia, you got to go in Jesus' name. Heartbeats, the rhythm of your heart is getting healed right now in the name of Jesus. I see it happening. Migraines are disappearing. Sciatic nerves are getting healed in backs, and that's a thousand people are getting healed of sciatica in your back right now. That's because I'm pleading the blood of Jesus. Someone cannot make tears. You got dry eye. God is healing you and you will make tears this very day when I plead the blood of Jesus over you and that healing is taking place. Acid reflux is getting healed right now and many of you are getting healed right now. Receive it today. Point your hand toward my hand in the name of Jesus, and by the blood of Jesus, say this, I receive my healing.

**SID:** I receive my healing.

**TOMMY:** I am healed.

**SID:** I am healed.

**TOMMY:** I am delivered.

**SID:** I am delivered.

**TOMMY:** I am set free.

**SID:** I am set free.

**TOMMY:** By the blood of Jesus.

**SID:** By the blood of Jesus.

**TOMMY:** And in the name of Jesus.

**SID:** And in the name of Jesus.

**TOMMY:** I receive it in Jesus' name.

**SID:** I receive it. Amen.

**TOMMY:** Amen.
